

## Phase 3 tricky words

Tricky words are words that cannot be decoded easily. We use many of these tricky words often and they are used early on in decodable books, so it is important for children to be able to read them fluently. We teach tricky words by identifying the 'tricky part' and the sound it makes, then sounding out and blending the word as normal.

The tricky words for *Little Wandle Letters and Sounds Revised* are the original tricky words from Letters and Sounds, combined with the Common Exception Words from the English National Curriculum Year 1 and 2 Spelling appendix.

The table below lists all the Phase 3 tricky words. It includes tricky words taught at Phase 3 but also Phase 2 tricky words that are still not decodable. Phase 2 tricky words that are decodable at the beginning of Phase 3 are excluded.

The words for each phase are listed in order of progression. Some of them become decodable later in the programme as children learn more GPCs.
